WEST local

X91 Chew Valley Sprint

Ubley - East Harptree - Bishop Sutton - Chew Stoke - Imperial Park - **Bristol city centre**

People-powered transport

WEST local is a new type of bus service - designed by local people to meet the needs of their community. They're being created all over the region thanks to funding from the West of England Mayoral Combined Authority.

See how your *WEST* local came about and why it's important you support your local bus service.

Designed locally, run locally

Designed for local people, by local people

The *WEST*local X91, known locally as the "Chew Valley Sprint" successfully launched in April 2024. This *WEST*local service is managed by the Chew Valley CIC Sustainable Transport Partnership who are passionate about the benefits of travelling by bus: for individual convenience, community connection, personal health and wellbeing and as a simple pragmatic way to address the climate and nature emergency; decreasing local congestion and pollution and lowering the carbon footprint of transport in the area.

Initially a once-a-day commuter route, the *WEST*local X91 Chew Valley Sprint will now offer three return journeys to Bristol from seven villages. By having limited stops only and using bus lanes, the *WEST*local provides a fast service and will operate Monday to Friday (except bank holidays).

Members of the Chew Valley Community Interest Company Sustainable Transport Partnership and X91 passengers.
